EDUCATION

Queens College, The City University of New York
B.A. Computer Science

Flushing, New York
Expected Graduation 2027

Forest Hills High School
High School Graduate

Forest Hills, New York
September 2018 – June 2022

PROFESSIONAL EXPERIENCE

Runwei

Data Integrity Intern

Remote

July 2025 - August 2025

- **Enhanced Product Stability** by conducting comprehensive QA testing on user and admin portals, submitting 10+ detailed bug reports with annotated screenshots to accelerate development cycles.
- **Improved Team-Wide Efficiency** by developing and leading a live tutorial on leveraging LLMs for high-quality opportunity sourcing, building upon a personal portfolio of 40 sourced opportunities.
- **Fostered Collaboration & Technical Integrity** by proactively identifying and correcting a database schema error, providing one-on-one peer support, and distributing meeting summaries to ensure team alignment.

BuildFellowship

Consultant Student Intern

Remote

February 2025 – May 2025

- Developed a secure password-sharing web application using Node.js, PostgreSQL, and Render.
- Built and consumed secure RESTful APIs in Node.js, integrated in the frontend UI using Retool.
- Implemented JWT-based authentication and bcrypt password hashing to protect user information in the database.

Best Buy Retail Company

Product Flow

Flushing, NY

September 2022 – July 2023

- Managed daily warehouse logistics, including fulfilling over 100 customer orders daily, inventory stocking, and providing direct customer assistance.

Exalt Youth Organization

Paid Student Intern

Remote

March 2022 – June 2022

- Drove individual and collaborative projects, culminating in presentations to peers and program leaderships.

PROJECTS

JPMorgan Chase & Co. | Software Engineering Virtual Experience

- Developed a real-time financial transaction processing system using Java and the Spring Boot framework.
- Integrated Apache Kafka to build a robust message queue for ingesting and handling asynchronous transactions.
- Implemented a connection to an H2 database with Spring Data JPA to validate, update, and persist user and transaction records.

VOLUNTEER

AECOM (STEM SATURDAY)

Group Leader Volunteer

Queens, New York

May 2025

- Guided a group of four 3rd-5th grade students in building and testing structures, fostering teamwork and iterative scientific thinking behind the design.

SKILLS

Languages: Java, C++, TypeScript, JavaScript, HTML/CSS, SQL

Frameworks & Libraries: Node.js, Next.js, React

Tools & Platforms: PostgreSQL, Firebase, Render, Retool, Git, GitHub
